Hi Ruth,

I think this looks good. I did a little formatting and flipped ESA and delayed implementation since we were just going to briefly note delayed whereas a little more discussion may be needed for ESA. I sent the mitigation table edits a little while ago – Kathy are you okay with it?

Thanks!

here's what I've done so far. I used most of what's in the tables; shortened in a few cases but didn't want to take too many liberties.. Didn't add mitigation rec's yet (waiting for revised table)

Kathy or Mindy can fine-tune wording if you want.

But wondering about this approach Maybe make a separate page or attachment with the topics and recommendations.
